

# A Crowded Ride in the Countryside

## Craft Instructions

### Story Retelling Prop

You will need:

- Story Characters template (2 pages)
- Card stock or construction paper
- Velcro

What to do:

1. Print both pages of the Story Characters template on card stock if possible. If not, print on regular paper and glue onto construction paper to make them stronger.
2. Colour and cut out the animals. (The truck doesn't need to be cut out.)
3. Attach a piece of sticky back Velcro to the back of each animal. Remember to attach the same side of the Velcro to all the animals.
4. Attach the opposite type of Velcro to the page with the truck—one piece for each animal.
5. **To play:** Retell the story putting the animals on the truck one by one as the farmer gives them a ride. When they hit the bump in the road and everyone falls out, pull all the animals off.
