

# Feast for 10

## Craft Instructions

### Let's Go Shopping

You will need:

- Grocery cart template
- Grocery flyer

What to do:

1. Make a copy of the grocery cart template.
2. Cut out pictures of food from the grocery flyer that your child would like to put in the cart.
3. Glue the food onto the grocery cart template.

*Some parents have used this activity to help manage grocery shopping with children. You can make the craft ahead of time with your child. Then when you get to the store your child can look for the items in their craft on the shelves.*
