

# Good Night, Gorilla Craft Instructions

## Paper Plate Zoo Craft

You will need:

- Large paper plate
- String or yarn
- Zoo animals template

What to do:

1. To make the zoo cage from a paper plate, cut 5 slits along the top and 5 slits along the bottom about  $\frac{1}{2}$  inch into the paper plate from the edge.
2. Wrap the string or yarn around the paper plate and into the slits so that it forms 5 cage bars. Tape or tie the string at the back so the string stays in place.
3. Print, colour and cut out the zoo animals.

*Now your child can retell the story  
by putting the animals in the cage and taking them out one by one!*
