

# The Mitten

## Craft Instructions

### Stitch a Mitten

You will need:

- Mitten template
- Animal template
- String

What to do:

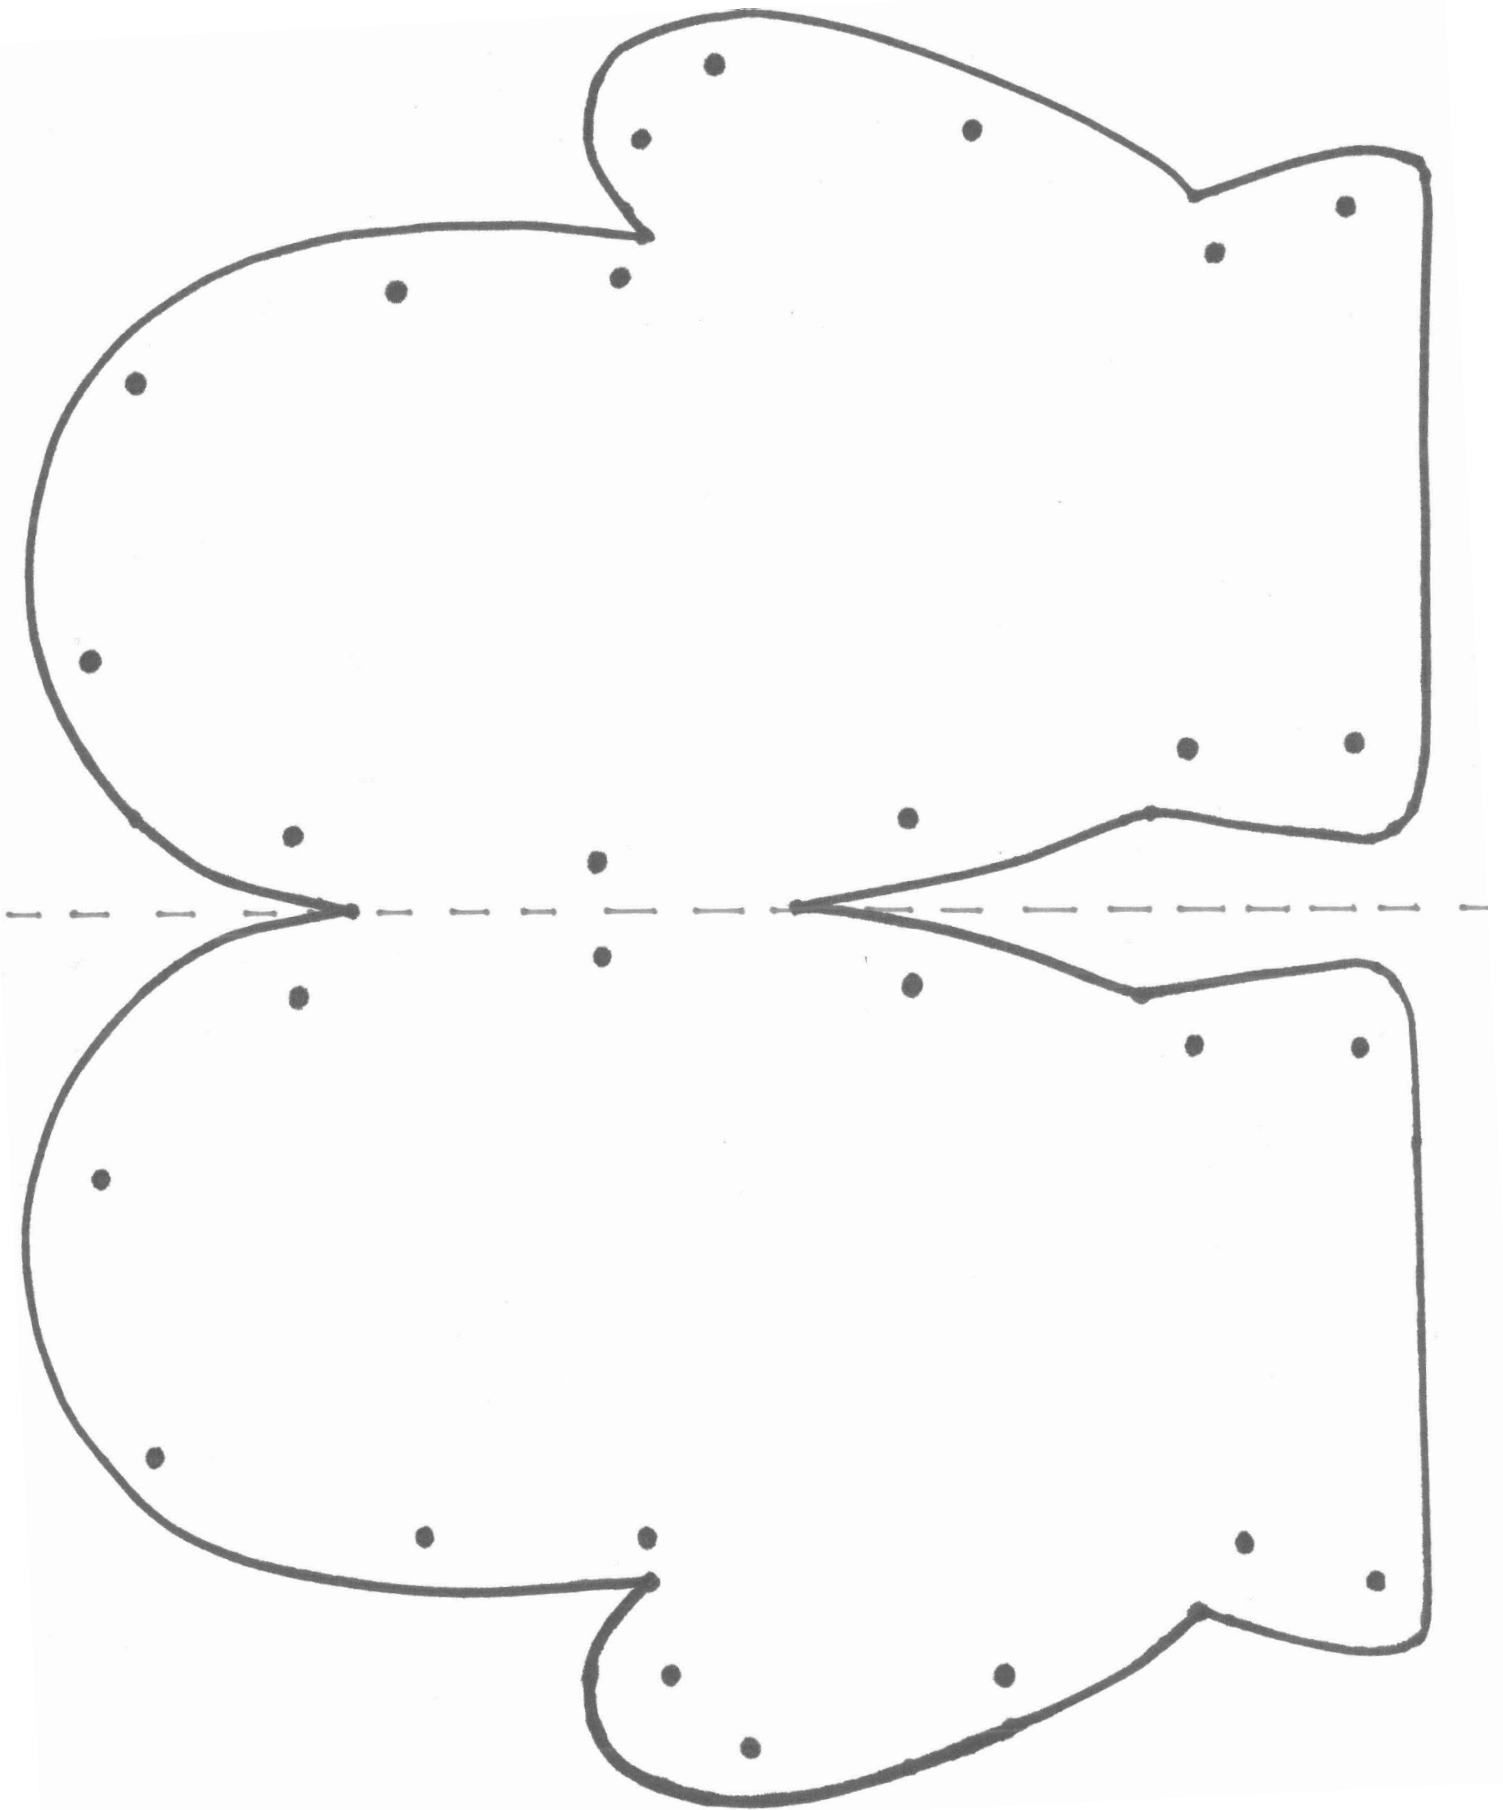

1. Copy the animal template. Colour and cut out the animals.
2. Copy the mitten template. Fold in half on the dotted line. Cut around the mitten on the solid line, leaving part attached. Punch holes on the dots around the mitten.
3. Stitch the mittens together using the string. Leave the end of the mitten open for the animals to squeeze into.

*Can you remember which animal went into the mitten first? Second? Third? And so on...*

*See if you can put them in the mitten in the same order as the story.*
