## Move like a penguin

With a ball between your legs, waddle away!

Put a beanbag on your foot and pretend to be a parent penguin balancing the egg.

## Life cycle of a penguin game

<https://www.ecosystemforkids.com/penguin-life-cycle.html>

## Ordinal numbers in ASL

Useful for asking what comes 1st, 2nd, 3rd... in the life cycle of a penguin or what place they finished in a race!

## Attention maintenance strategies

Children are movers! Even on the go, they may still be paying attention to the story. Try a gentle tap on the shoulder or nudge with the elbow to regain focus, move the book more into their view and ensure your signing is lively. *Based on the Clerc Center's Shared Reading Project.*
